

NEWS LETTER

I greet you all in the name of Jesus Christ, we have come to the end of this Academic year 2023. I would like to congratulate you all and the school community. This has been a wonderful term. We are deeply indebted to your presence and contribution whenever called upon you.

Kings Norton Foundation Uganda (KNFU) has grown and growth is intentional and deeply entrenched in our values. With the growth, the system has demanded more policies, more community involvement, more sports/games and building facilities.

As you are aware, Schools are indicators for learning so our children have been taught and nurtured to foster life skills. We are proud of their progress generally.

As they go home, all Academic Syllabi have been completed and examinations are done. We have had a challenging term regarding school payments. We carefully looked through our billing system with our finance department and our new school fees payment policy has not yet been optimised. We are hoping to circulate it to all parents to refocus your plans for school fees payment in the next academic year using SCHOOL PAY.

Our learners support unit/ Special needs department has also been given a special status. It will be an integral part of the school approach to supporting learners who show intentions of disengagement and with challenging behaviours. The Special needs department has also supported the learners with learning needs fully. We therefore intend to incorporate more staff as well as re-structure their Services for purposes of serving them better.

The turnout of the Children this academic year has not been very appealing like before COVID 19 pandemic due to the fact that the Government under Ministry of Education put restrictions on having spacious classrooms to avoid spread of the disease. This therefore limited us to enrolling in new pupils however much the parents in the community showed interest in accessing our Services.

We are therefore putting more emphasis on school enlargement so that the community can very much utilise the Inclusive education we offer to the Children within and outside Wakiso district.

SPORTS

we wish to thank those parents who heeded our events Calender and honoured our invitation with physical attendance. Thank you for angaging with and working with the teachers particularly during the school Sports Gala. We appreciate the support you have extended to our learners, this has very much improved the pupils esteem through sports to school performance.

INFRASTRUCTURE

As Kings' Norton School(KNS), we thank God that through Friends of Kings' Norton School UK, we have been able to axtend a condusive learning environment for the learners. With the Pupils' growth, new classroom buildings have been set up to accomodate the needs of the learners.

LIBRARY

As KNS, it is our task to ensure a strong foundation for the children's holistic development. We anticipate our reading culture has been improved to be able to guide our learners' educational pathways. We set up a well facilitated spacious library where our learners do seek more knowledge through revision exercises as well as readers to improve on their reading culture. Due to our well stocked Library, the early learning goals, and assessment strategies, we can say without doubt that each learner has achieved a milestone.

We express deep appreciation to Friends of Kings' Norton School for donating to us avariety of library books. For the numerous supporting systems you have put in place, we promise excellence , proffessionalism and always making a difference.
