KINGS' NORTON FOUNDATION UGANDA (KNFU)

Working together to change the lives of vulnerable children.....!

KINGS NORTON SCHOOL

Race For Excellence

“Offering Inclusive Education and support to special needs and vulnerable children”

On behalf of the board and management of KNFU, we are so pleased to give you an update of the activities of KNFU. I would like to offer my sincere appreciation and deepest gratitude to you our partners. I am very confident that our energy, commitment and hard work will turn our dreams to reality.

We believe that as our partners, you play a pivotal role in shaping the future of our community. KNFU is enthusiastic about supporting Different Abled Children (DAC) by providing them with quality care and education to learn, grow and be self-reliant.

KNFU received a donation of Ug. Shs. 5,500,000 that was used to:

- Paint the inside and outside the new storeyed classroom/ dormitory block.
- Plumbing of the dormitory lavatories

We recently received another donation of Ug. Shs. 29,800,000 towards the purchase of a school van and we are still searching a used van that is still in good condition.

We are determined to protect and empower vulnerable children with skills, education, love and a homely environment and hope for a brighter future though strengthening their statuses in society hence providing them with physical, psychological and spiritual education and support so as to mentor them into responsible adults.

Transforming lives through programs that give older children skills and knowledge they need to thrive independently.

We also offer informal education to our children through self-awareness trainings. This aims at creating knowledge about oneself in line with their rights and welfare.

INFRASTRUCTURE

As Kings' Norton School (KNS), we thank God that through Friends of Kings' Norton School UK, we have been able to extend a conducive learning environment for the learners. With the Pupils' growth, new classroom buildings have been set up to accommodate the needs of the learners.

OUTDOOR PAINTING

FOR KNS MULTIPURPOSE BUILDING

Due to your support, we manage to give our school a new face by painting the entire KNS Multipurpose building and other buildings within the schools as shown in the photos below.

VERANDA HANDRAILS INSTALLATIONS

Handrails are necessary to provide support and guidance to users of stairs. Therefore, we managed to put up handrails to firmly support our learners as they walk into the dormitory and verandas. This also ensures learner safety by guarding and preventing falls from height.

TANK & GUTTER PURCHASE & INSTALLATION

Given the seasonal rain season, we purchased a water tank and installed it together with gutters with the aim of rainwater harvesting. Hence this has helped us to cut on the water payment bills and also be able to store the rainwater for later use.

VAN PURCHASE

As a rural school, the ability to transport kids to school and also attend the many varied and valuable experiences off campus is becoming increasingly important. With your support, we managed to purchase a 14 Seater Van to ease the transportation of our kids.

DORMITORY FURNISHING

During the course of painting the outer Multi purpose building, also the girls dormitory was painted to create a conducive environment for the boarding childrens.

SPORTS

As part of the physical education (PE), KNS had a School Sports Gala with the parents who honored our events Calendar and honored our invitation with physical attendance. We had several sports activities and we thank you for your full support because this has very much improved the pupil's esteem through sports to school performance.

LIBRARY

As KNFU, It is our task to ensure a strong foundation for the children's holistic development. And together with KNS, we managed to set up a well facilitated spacious library where our learners do seek more knowledge through revision exercises as well as readers to improve on their reading culture. Due to our well stocked Library, the early learning goals, and assessment strategies, we can say without doubt that each learner has achieved a milestone. We express deep appreciation to **Friends of Kings' Norton School** for donating to us a variety of library books. For the numerous supporting systems, you have put in place, we promise excellence, professionalism and always making a difference.

COMPUTER PURCHASE

With day to day activities were computers and other ICT equipment are used to improve lives by enhancing educational experiences.

KNFU using the donation received, purchased some desktop computers for KNS to ensure that learners get some computer skills hence bridging the digital divide.
